

SLIM & SLIM XL - PRODUCT INFORMATION

Slim

Now we can offer you a new sales-stimulating product: Two Big Franzéns has become Slim Franzén - a trolley with two spacious baskets that uses just slightly more shop space than an ordinary single basket,

For example, a stack of ten Slim Franzén trolleys in around one metre long and only a basket wide.

Slim Franzén is a master om small space. It also offers convenience to customers who, although they don't want to do their weekly shopping still want to buy more than is room for in a basket.

In smaller shops trolley often create irritation. they are big and hard to handle, they block the aisles and gets in the way of the shelves

Slim XL

As an extra carrying support, we offer SlimXL, the smooth little shopping-basket cart that holds two baskets, or, one basket and a crate of beer. It stacks extra tightly, so it has a very small floor space.

SlimXL fits the two largest baskets, SuperBig and Giant. It's perfect for the narrow shop and for elderly customers, who may find it a burden to carry a full shopping basket.
